

# UNDERGROUND STORAGE TANK MANAGEMENT

**E**XCEL Environmental Resources, Inc. (EXCEL) provides underground storage tank (UST) management services through a highly skilled and experienced team of professionals, including geologists, environmental scientists, and environmental engineers who are certified by the New Jersey Department of Environmental Protection (NJDEP). EXCEL provides a full range of services for management of UST's on residential, commercial, and industrial properties. We are proud of our unique community-wide UST grant outreach program that has enlightened municipalities, homeowners, and commercial property owners regarding the availability of millions of dollars in State grants and low or no-interest loans for UST closure and remediation.

We have closed hundreds of UST systems utilizing grants for the vast majority of residential heating oil UST closures, including remediation of discharges, and grants or low or no-interest loans for our municipal and commercial clients. Our UST management team has received accolades from numerous clients for our cost-effective, timely, and service-oriented performance! Ask us how we can put our expertise to work for you!

## The UST Management Services offered by EXCEL include:

### Evaluation of Existing UST Systems

- UST Inventories and Registration
- Regulatory Compliance Evaluations
- Upgrades and Modifications
- Integrity Evaluations and Testing
- Subsurface Investigations

### Financial Assistance

- Residential UST Grants
- Municipal and Commercial UST Grants and/or Loans
