## Excel's Residential Tank Program

Excel provides Underground Storage Tank (UST) management services through a highly skilled and experienced team of professionals, including geologists, environmental scientists, and environmental engineers who are certified by the New Jersey Department of Environmental Protection (NJDEP).

We are proud of our unique community-wide UST grant outreach program that has enlightened homeowners regarding the availability of millions of dollars in State grants as well as low or no-interest loans for UST closure and remediation. Ask us about it!

## Residential Tank Program

**Underground Storage Tanks can be removed at no cost to you with a State Grant!**

Millions of New Jersey residents get their drinking water from aquifers that are vulnerable to pollution from leaking heating oil tanks.

New Jersey wants to make sure your underground heating oil tank is not contributing to the problem, so they've made millions of dollars in State grants available for this purpose. We've helped many homeowners just like you apply for and receive a State UST grant.

### Do you qualify for a State UST Grant?

- Your taxable income must be less than \$250,000

**AND**

- Your personal net worth (not counting your primary residence and retirement accounts) must be less than \$500,000

We have closed hundreds of UST systems utilizing the State Grant Program for the vast majority of heating oil UST closures, including cleanup of discharges. Our UST management team has received accolades from numerous clients for our cost-effective, timely, and service-oriented performance!
